OBJECTIVE

Junior software developer with training in web and mobile development using technologies such as React, React Native, .NET, and C#. Interested in Frontend, Backend, Fullstack, and AI automation opportunities. Focused on continuous learning, problem-solving, and teamwork.

EXPERIENCE & PROJECTS

Automated WhatsApp Chatbot 2026

TecPool – Freelance Project

- Developed an automated customer support chatbot integrated with Meta WhatsApp Business API for price quotes, inquiries, complaints, and bookings.
- Implemented conversation logic using JavaScript and integrated cloud services such as Twilio (messaging), Upstash Redis (state/session management), and Fly.io (deployment).
- Completed full integration with the Meta Business Platform for WhatsApp channel verification and activation.

Corporate Website 2025 – 2026

TecPool – Freelance Project

- Developed a multi-page website using React and React Router.
- Designed and structured reusable components applying CSS and UX/UI principles.

EDUCATION

University Technical Degree in Programming Jun 2023 – Jul 2025

Universidad Tecnológica Nacional (UTN)

- Training in web and software development using React, .NET, C#, Entity Framework, JavaScript, Bootstrap, MySQL, and Python.
- Version control with Git and GitHub, along with object-oriented programming and relational database fundamentals.

Application Development Course Jan 2026 – May 2026

Coderhouse

- Mobile application development using React Native and Firebase.
- Implementation of authentication systems and real-time databases.
- Use of Git and GitHub for version control and collaborative work.

AI Automation Course Mar 2026 – Apr 2026

Coderhouse

- Workflow automation using n8n.
- Integration of artificial intelligence tools, APIs, and LLM models.
- Process optimization through automation and no-code/low-code systems.

Advanced AI Automation Course May 2026 – Jun 2026

Coderhouse

- Developed advanced automation workflows using **n8n**.
- Designed intelligent workflows leveraging **LLMs**, **RAG**, and document processing.
- Implemented robust AI solutions using **Human-in-the-Loop (HITL)**, multimodal capabilities, and automation best practices.

TECHNICAL SKILLS

Frontend: React.js, JavaScript, HTML, CSS, Bootstrap, React Native

Backend: .NET, C#, Entity Framework, Python, Node.js

Databases: MySQL, Firebase

Cloud / Services: Twilio, Upstash Redis, Fly.io, Meta Business API, Vercel

Automation & AI: n8n, APIs, LLM integration, RAG, AI Workflows, Prompt Engineering.

Version Control: Git, GitHub

LANGUAGES

Spanish: Native

English: Basic

Portuguese: Intermediate
